

Introducing a sample kit of the Xinger®-III brand family of surface mount couplers and Doherty combiners, the latest, innovation-driven reinvention of the SMT RF coupler – and designed especially for today’s higher power, more compact, and hotter-running equipment. Matter of fact, inch for inch, watt for watt, the Xinger-III family offers the highest performance of any softboard coupler on the market, even when compared to similarly sized members of Anaren’s category-leading, Xinger®-II family.

## Features

- Up to 5 times the power handling
- Up to 66% lower insertion loss
- 25-28% higher isolation
- 63-71% better amplitude balance

## 3 dB Hybrid Couplers Qty Per

X3C07P1-03S	3
X3C09P1-03S	3
X3C09P2-03S	3
X3C19P1-03S	3
